Robust and Strategised Contractual Protections

Contracts

From the very beginning of contract formation, we provide advice on the best form of contract to use in order to meet with client requirements. We assist in contract drafting to deal with specific project or client requirements to ensure that contracts are robust in nature and protect the key interests that the client has. In the event that there is another party forming the contract and issuing for review, PMCC will provide assessment of the same, identifying possible amendments and the key risks, rights and obligations of the Contract.

Upon award, PMCC will administer the contract of the project and issue necessary letters / notices to ensure that rights are maintained and the obligations are confirmed.

Claims

Our claims include for extensions of time, loss and expense, disruption and acceleration measures.

Our delivered product is clear, well thought out and provides for a robust and evidenced product for negotiations and discussions with opposing parties.
