

PMCC
Your Trusted Project Partner

LET US START WHERE IT MATTERS - FROM THE BEGINNING

CORPORATE BROCHURE

Every project has its own set of challenges and very often these challenges are highly complex in nature whether relating to budgets, logistics, timing, materials or people.

At PMCC, we believe your project is unparalleled and unique on its own, which is why we are dedicated to provide bespoke management services to ensure your project is delivered to meet your specific success framework.

As a multidiscipline project consulting firm, we innovate solutions with proactive and forensic support you would need to deliver your project on time and within budget. We blend diverse expertise with keen foresight to achieve project goals and mitigate risks.

As co-creators of projects, we define clear processes and explain it in detail for clients before we embark on a journey together. When we come in, we look at the project organisation, the team and the system architecture. Then, we implement changes, planning, monitoring and control accordingly.

PMCC ensures success through innovative and sustainable consulting with socially responsible thinking, training, coaching and online publication while providing cost-effectiveness and caring for the environment.

About Us

Established in 2007, we are dedicated to deliver effective solutions to complicated business challenges facing Energy, Transportation, Manufacturing & Infrastructure, Building & Properties and Technology & Communications sectors.

Today, our renowned expertise are project management, commercial management, contracts, claims & disputes, EPCM, requirement management, planning as well as training. We provide these services for project sponsors, developers, contractor, end-users, financing entities and operators to grow and develop their business.

Our staff comprises of diverse professional backgrounds and cultures with various experiences across the industry. We are committed to meeting your project needs, regardless of complexity, from start to finish, staying true to our reputation for being “Your Trusted Project Partner”.

PMCC delivers projects through its innovative consultancy techniques and mastery.

Why PMCC?

We do projects because it is our passion. We deliver porject control, planning, systems integration and much more because we love it. If something is new, we master it. We go above and beyond for our clients because we want toi it. Our reputation precedes us. We are your Trusted Project Partner.

“

**CO-CREATE THE FUTURE
WITH US**

”

Our Vision

To be recognised as one of the most exceptional, creative, and forward-thinking construction consultancy companies servicing clients across the world.

Our Mission

To transform our client needs into innovative solutions that are able to co-create a sustainable future, evolving, exciting, and enabling the greatness of extraordinary individuals.

Our Team

The Management Team

Form the left:

Peter Wyss (Group CEO), Jamie Duncan (Director)

The PMCC team has top-tier experience in providing the right resources your project requires. One of our many fields of expertise is the identification of valuable individuals with the right skills and strengths to fulfill your needs. Our focus has always been, and always will be to achieve the best possible results for your project.

Our specialist team has worked on numerous international projects and delivered outstanding results consistently. We owe this to our passion in what we do and our team's dedication to be the best at what we do. We cover all aspects of EPC by incorporating best practises and the new ideas of Industry 4.0 for precise and timely outcomes.

Team Professional Accolades:

Our Services

We do projects because it is our passion. We deliver project control, planning, systems integration and much more because we love it. If something is new, we master it. We go above and beyond for our clients because we want to win it. Our reputation precedes us. We are your Trusted Project Partner.

Project Management

Management of projects either face to face on site or via virtual platform, depending on the individual role, scope and project needs from project development, throughout the entire project life cycle inclusive of operation and maintenance until decommissioning or de-investing the project.

Commercial Management

Commercial Management of projects from initial feasibility studies, through to business planning, cost planning, procurement, cost forecasting, cost management and value creation. These services provide for commercial knowledge and assurance for our clients throughout each stage of projects.

Contracts, Claims and Disputes

Commercial Management of projects from initial feasibility studies, through to business planning, cost planning, procurement, cost forecasting, cost management and value creation. These services provide for commercial knowledge and assurance for our clients throughout each stage of projects.

Requirement Management

Requirement management is an art of developing a meticulous process that validates if the project requirements are met during its lifecycle. Projects are continuously becoming more complex with thus with an efficient requirements management, you can conquer the complexity and interdependencies that exist in the present project management ecosystem

Engineering, Procurement and Construction Management (EPCM)

Our experience as PMC, PDP or specific subject matter expert for the project owner, the main EPC contractor, or sub-contractors is one of PMCC's prime service. We tailor and integrate EPC topics with overall engineering management, requirement, interface, risk, procurement, contract and construction management, project operations and claim management to ensure positive cashflow throughout the project.

Planning

Plan your moves with the right programme for your project. Our planning services include initial feasibility programmes, tender programmes for bids, Client or Contractor project baseline programming to ensure robust project plans, acceleration or mitigation programming to deal with events throughout the project and extension of time claims with detailed delay analysis.

Training

The internet is full of data, but to get the right information and to have questions answered is of essence. Our experienced facilitators, proven in the field as mentors equipped with best practises and combined with the latest information and technology will give you the best learning in the shortest time possible.
