

WHO WE ARE & WHY US?

PMCC was founded in 2007 and over the last two decades we have obtained valuable experience from EPC project management and system engineering with a highly diverse and competent team.

We are the experts in our field and now integrate AI to raise efficiency, productivity and quality upholding our excellent reputation as “Your Trusted Project Partner”. We master new technologies to exceed client expectations and maintain our reputation for excellence.

At PMCC, **we don't just manage projects – we drive them to success.** Backed by 30+ years of innovation and expertise, we deliver tailored solutions that exceed expectations and align with your vision.

Trusted for our consistency, precision, and performance – clients return because we deliver.

WHAT WE DO

Where Engineering Meets Assurance: Systems Built to Last

- **Holistic Assurance:** Systems Assurance requires a holistic approach to ensure complex systems meet their purpose, perform reliably and comply with standards throughout their System Engineering lifecycle.
- **We cover all aspects** from Systems Engineering, Risk Management, RAMS, Requirements Management to Interface Management, Cyber Security Assurance, Compliance, Quality Assurance, Continuous Monitoring as well as Change Management.
- **We deliver** an integrated approach across the system lifecycle (V-Diagram) from concept and design, through implementation, Verification & Validation (V&V) to operation, maintenance and decommissioning or upgrading.
- **We outperform** with extensive experience and AI x AI integration into our processes and AI-enabled solutions.

SYSTEM ASSURANCE

CO-CREATING PROJECTS OF THE FUTURE
