

WHO WE ARE & WHY US?

PMCC was founded in 2007 and over the last two decades we have obtained valuable experience from EPC project management and system engineering with a highly diverse and competent team.

We are the experts in our field and now integrate AI to raise efficiency, productivity and quality upholding our excellent reputation as “Your Trusted Project Partner”. We master new technologies to exceed client expectations and maintain our reputation for excellence.

At PMCC, **we don't just manage projects – we drive them to success.** Backed by 30+ years of innovation and expertise, we deliver tailored solutions that exceed expectations and align with your vision.

Trusted for our consistency, precision, and performance – clients return because we deliver.

WHAT WE DO

We Do the Work – And Keep It Working

- **We cover** the full scope of maintenance, from predictive AI-powered planning and system assurance support to field execution, including point machine installations, cable works and on-site fault response.
- **Executive Strength:** Our field-proven teams bring hands-on expertise, technical crews and reliable support for critical rail infrastructure maintenance.
- **Speed & Flexibility:** We act decisively, even under tight timelines – adapting to client urgencies while reducing downtime and ensuring continuity.
- **AI-Driven Delivery:** Leveraging AI tools, we forecast maintenance needs, streamline documentation and optimise resources for maximum efficiency.
- **End-to-End Capability:** From strategic advisory to boots-on-ground execution, we provide a complete maintenance solution for rail and infrastructure clients.
- **With trust and innovation,** we deliver and ensure reliable, safe and long-lasting performance.
