

WHO WE ARE & WHY US?

PMCC was founded in 2007 and over the last two decades we have obtained valuable experience from EPC project management and system engineering with a highly diverse and competent team.

We are the experts in our field and now integrate AI to raise efficiency, productivity and quality upholding our excellent reputation as “Your Trusted Project Partner”. We master new technologies to exceed client expectations and maintain our reputation for excellence.

At PMCC, **we don't just manage projects – we drive them to success.** Backed by 30+ years of innovation and expertise, we deliver tailored solutions that exceed expectations and align with your vision.

Trusted for our consistency, precision, and performance – clients return because we deliver.

WHAT WE DO

Where Engineering Meets Assurance: Systems Built to Last

- **We cover all aspects** of assurance, from Systems Engineering, Risk Management, RAMS and Interface Management to Compliance, Quality Assurance, Continuous Monitoring and Change Management.
- **Holistic Assurance:** Ensuring systems meet their purpose, perform reliably and comply with standards throughout their System Engineering lifecycle.
- **Integrated Approach:** Delivering assurance through the entire system lifecycle (V-Diagram) from concept and design, through implementation, Verification & Validation (V&V) to operation, maintenance and decommissioning or upgrading.
- **AI-Powered Solutions:** Blending assurance expertise with AI integration to strengthen processes, improve precision and optimise performance.
- **With proven methods and innovations,** we deliver system assurance that ensures reliability and compliance throughout.

SYSTEM ASSURANCE

CO-CREATING PROJECTS OF THE FUTURE
